

單機消費儲值應用

Offline Stored-Value and Consumption Application

消費儲值

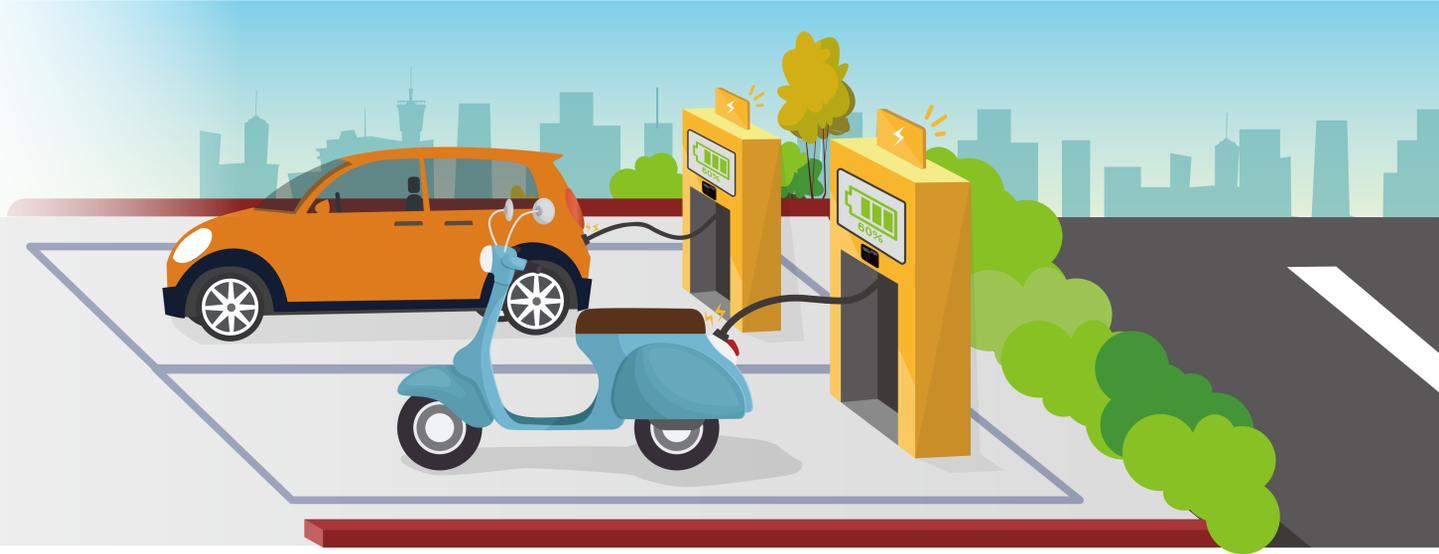

Stored-Value and Consumption

- 不需龐大架構，單機即可直接進行儲值動作，應用範圍廣泛，可依需求選擇提供顧客結帳方式，可結算時間、金錢或點數。
Without complicated background software system, only the standalone controller can directly store value to card for consumption. The Checkout mode can also be customized by the different demands of settled time, estimated money or points.

電動汽機車充電站

Electric vehicle charging station

- 社區大樓、商辦大樓或賣場及公共(私人)停車場的臨時充電之計時計費使用，卡片可供充電設備不同時間、不同充電車位使用，只需插入卡片即可開始充電，拔出卡片隨即斷電。
It is applied for temporary power charging in Parking lots of Community, Commercial building, Shopping Mall and Public / Private. The cards can be used for charging devices at different time and different parking spaces. Inserting card to start charging and pulling out card for stop charging.

冷氣儲值與飲料機販賣系統

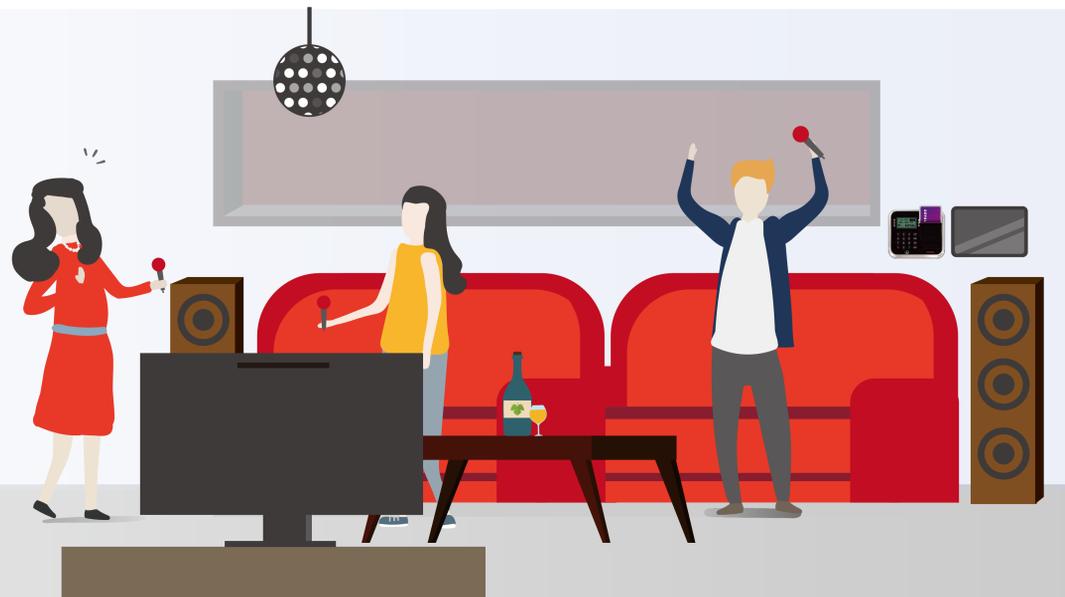

Air-Conditioner and Vending Machine Application

- 依使用時間計算方式來扣除儲值卡片餘額，並依卡片置於節電插卡機內的時間定時或計次扣除固定餘額或點數，當卡片無數值或拔出卡片時會關閉冷氣或照明設備。
※卡機可彈性調整扣除卡片的單位及扣除的單位時間
The consumption can be calculated by Time, Frequency or points. The light devices or Air-Conditioner will automatically switch off when the card is pulled out or the value in card is not enough.
※The controller can be set up to deduct the card value by frequency or by time.
- 使用者感應後，由卡機判斷點數是否足夠，如足夠點數將由讀卡機送訊號給飲料機，並於讀卡機螢幕上顯示此次的使用點數及該使用者剩餘點數。
After swiping card, the controller will determine whether the value or points stored in card is enough or not. If so, the controller will send a signal to vending machine and also display the consumption value or points and the balance on LCD screen.

視聽娛樂KTV室

Audio Visual Entertainment KTV Room

- 使用者可以透過感應讀卡機判斷該卡片點數是否足夠，如足夠則傳送訊號至讀卡機，由讀卡機將接點短路開始供電。結束使用時則需再次感應讀卡機關閉電源並扣除點數，並於讀卡機螢幕上顯示此次的使用點數及剩餘點數。
The user can get know whether the value or points on the card is enough or not by controller. If so, the relay status of controller will change so the power of devices in KTV can be switch on to run. When swiping card to controller again after left, the power of devices will be switch off and deduct the consumption value or points from the card. At the same, the consumption value or points and the balance will be displayed on LCD screen.
